

The following is an advisory from our lobbyist: Pam Deardorff.

After some debate, but with no chance for amendments or changes to the budget proposed, the General Assembly passed the Conference Report for Senate Bill 99, Appropriations Act of 2018. The Act includes a one-time 1% 'bonus' for retired teachers and state employees. It is anticipated that the one-time payment will take place in the September retirement check.

The Appropriations Act also includes funding for the Retirement System (ARC) as well as funding for the State Health Plan.

The bill has gone to the Governor who may choose to sign it, veto it or let it go into law without his signature.
